## CONTENTS

Preface ·····	• 1
Nobutaka Odake	
Refereed Research Papers	
A Method of Activity in Production Engineering Division to Effectively Promote Proactive	
Engineering —A Method That Collaborates with Organizations Inside and Outside the	
Company to Meet High Required Specification of Product Development Division— · · · · · · · · · · · · · · · · · · ·	. 7
Akira Kanazawa, Masayoshi Wada	
Current Status of Metal Additive Manufacturing Business in Japan	
—The Case Studies of Service Bureaus— · · · · · · · · · · · · · · · · · · ·	17
Yukako Harata, Norio Tokumaru, Nobutaka Odake	
Study of Work-Learning and Work-Load Based on Differences in Digital Work Instruction	
Media —Comparison of Wearable Glasses, Displays, and Projectors—·····	25
Hiroaki Yamada	
Mechanism of Collaboration and Competition in Agricultural Production Areas	
—The Case of the Olive Industry on Shodoshima— · · · · · · · · · · · · · · · · · · ·	37
Mika Yamada, Norio Tokumaru, Nobutaka Odake	
Research Papers	
Research on Intelligent Process Automation that Complements the Limits of Class One Level	
RPA	45
Takashi Iwamoto	
About the Problems and Solutions in Introducing RPA ·····	51
Takashi Iwamoto	
Research on Issues for Establishing BCP in SMEs ·····	57
Fujio Joko, Takashi Kondoh	
A Demonstration Experiment of a Supply Chain Coordination with a Capital-Constrained	
Supplier under Yield Uncertainty	63
Masatoshi Tanaka	0.0
Nobel Prize Observed in the Education of Registered Dietitians	69
Junzo Masamoto	0)
A Study on Book-to-Bill Ratio in Machinery Manufacturing Industry	75
Soichiro Higashi	13
Management Analysis of Food Manufacturing Industry based on The Census of Manufactures	<b>Q</b> 1
Yasumasa Hironaka	01
The Research of Body Proportion Judgment for Health Management in Adults	
—Judgment of Hidden Obesity in Young Adult Men—·····	87
Yuzuru Naito Katsunori Fujii Vusaku Ogura Shinohu Urano	٥,

Design of an Order Entry System Utilizing Quality Function Deployment · · · · · · · · · · · · · · · · · · ·	93
Masamitsu Kiuchi	
Production Planning Support Considering Forecast Data Reliability and Inventory Allocation	99
Hiroki Okubo
