

## Call for Papers (ICPM in Thailand)

### The 3<sup>rd</sup> International Conference on Production Management & The 46<sup>th</sup> Conference of Japan Society for Production Management

Schedule: September 7-11, 2017

#### Conference Theme:

**“Production Design Thinking and Innovation:  
New Approaches to Leading Global Technologies”**

#### Spirit of Theme:

Various kinds of technologies of have been innovated, applied, transferred and connected ubiquitously throughout the world. Today manufacturing, services, and agricultural sectors need to adapt technologies to make goods and provide services which are fast, affordable, and for the benefit of mankind. Moreover, technologies need to be quickly applied to increase productivity in all sectors and improve environments for the well-being of the world’s population. The thinking behind escalatory technologies need to be re-assessed, trained and applied in new ways.
